The campaign for urging purchases of blankets was inaugurated by Amory Brown & Co., large manufacturers, of this city, and was intended primarily to popularize the use of cotton blankets. However, its general scope includes all blankets. In anticipation of the success of the week, jobsers made extensive purchases of cotton blankets, and they reported that virtually all their stocks have been consumed by retailers, especially the large department stores. Prices established on cotton blankets for the week range from \$1.50 for the small ones to \$5.50 for the larger patterns.

## BUSINESS

The company, through the purchase of the Newman Tire and Rubber Company of New York. operates twelve stores in New York, Pennsylvania and Maryland for the retail distribution of SEC-ONDS of all standard makes of tires and tubes; also has wholesale, export and mail order branches.

A summary of the letter from Mr. Stanley Newman, President of the Corporation, follows: PURPOSE OF NEW FINANCING: The new financing will enable the company to establish new stores and provide ample working capital for its retail stores, mail order, export and wholesale business.

PROFIT: Those of our stores which have been distributing tires at retail for eighteen months or more have shown a net profit of at least \$6,000 a year per store. At present there are twelve stores in operation and plans have been completed to open about thirty more in various cities of the United States. At an average amount of \$6,000, the total net profits for forty-two stores, after all deductions for operating expenses, taxes, etc., would amount to over \$250,000 per annum equaling nearly \$3.50 per share on the 77,500 shares to be outstanding with the completion of the present financing. These profits do not take into consideration the earnings that will be derived from the wholesale, export or mail order departments.

Chippawa Canal Project

The Chippawa Canal power project in Canada, according to consular advices, is to be conducted on a larger scale than heretofore stated. The undertaking was to cost between \$16,000,000 and \$18,000,000, and between \$16,000,000 and \$18,000,000, and between \$15,000 and 200,000 horsepower was will, when it is completed, be double the original estimate, its capacity instead of being \$6,600 second-feet will be over \$15,000 second-feet, and the product of that water will be \$500,000 and \$18,000,000 horsepower. For ordinary purposes it will supply \$425,000 horsepower, and equipment will be installed to develop \$25,000 horsepower.

## Antiquity of the Emerald

The emerald has been known since early times, both in Europe and in certain parts of the Orient, where its at-153.97 tractive color and rarity have endowed 100.49 it with the highest rank. Its name may be traced back to an old word which appeared in Greek as smaraged on mentioned in Greek by Theophras.
